DETAILED ACTION

Allowable Subject Matter

1. Claims 1-39 are allowed.
2. The following is an examiner's statement of reasons for allowance: The reasons stated in the first action are repeated here. The independent claims are 1, 17, 23, 30-32, and 39. Each of these claims is particularly detailed in regards to the structure for the claimed matter. Although individual pieces such as a packet scheduler and buffer organized to act as a pipeline are known, the detailed interaction of the pieces claimed by the applicants was not found to be anticipated or obvious over any prior art. Hartley et al. (US 6,473,414) discloses a hybrid hardware/software MAC. Time critical functions were disclosed to be off-loaded to the hardware portion of the MAC. Lee et al. (US 5,636,140) discloses a flexible MAC that can easily interface with different protocols.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
